

## **Report on Hemoglobin Test (30.01.2025)**

On **30.01.2025**, at **10.00 AM** the Department of Zoology, in collaboration with the Health Care Centre, organized a free “**Hemoglobin (Hb) Test**” for the students, teaching and non-teaching staff of SVA Government College, Srikalahasti. The program was conducted with the assistance of a Primary Health Center doctor and ANM staff from Bhaskar Peta, Srikalahasti, who provided expertise in conducting the tests. A total of 130 members attended the program.

The primary aim of the event was to assess the hemoglobin levels of the college community, raising awareness about the importance of hemoglobin in maintaining good health. The objective was to detect anemia and other related health conditions, promote healthy living practices, and educate participants on the necessary dietary adjustments to improve hemoglobin levels. Many women students and staff were found to have low hemoglobin levels. They were given immediate advice, including dietary changes and iron supplements if needed. The program significantly raised awareness about the impact of anemia and the importance of a balanced diet for maintaining optimal health. The active participation of the college leadership, including Principal Dr. Y. Nagaraja Naidu, Vice-Principal and Incharge of Zoology department Dr. K. Narasimha Varma, and Health Care Centre In-charge Dr. M. Thulasi, along with the PHC team, made the event a valuable initiative for the college community. The program was highly successful.
