HEALTH CARE CENTER

Health Care Center

Health care centre is established in SVA Government College to provide immediate medical assistance and support to students and teaching and non-teaching staff, especially during women's health issues. The health care centre is managed by the Dept. of Zoology staff to cater to students and staff who report minor health related issues. The centre aims to enhance the health and safety of students by providing timely and efficient medical care. In case of any emergency, the student is either rushed to a nearby hospital/medical centre. The college had given requisition letter to PHC Doctor to invite weekly/ monthly for general checkups to the students.

Objectives of the Health Care Centre

- The primary objective of the Health Care Centre is to offer immediate first aid and initial medical response to students experiencing health issues or injuries on campus. This ensures that students receive prompt care, reducing the risk of complications and promoting faster recovery.
- It also facilitates health programs on topics such as hygiene and nutrition.
- The health centre also works closely with local health authorities to ensure necessary preventive measures are taken, such as vaccinations and health advisories.

Facilities:

- A designated cot with bedding
- A well-stocked first aid kit
- A wheel chair
- A blood pressure machine
- weighing machine
- Faculty of dept. of Zoology are providing services to the needy

Services:

- First aid: Treatment of minor injuries, such as cuts, scrapes, burns and sprains
- Women's health support: Assistance with menstrual cramps and other women's health issues
- Referrals: Guidance on seeking further medical attention when necessary
